PROFESSIONAL SUMMARY

Detail-oriented SQA Engineer with **3+** years of hands-on experience in **manual** testing of web, mobile, and desktop applications, with strong exposure to **API** and **database** testing. Experienced in **Agile** environments, defect lifecycle management, and ensuring release quality across diverse product domains. Currently building **automation** skills using **Playwright** with **JavaScript**, focusing on regression coverage and test stability.

SKILLS

Technical & Testing: Manual & Automation Testing, API & Database Testing, UI/UX, Smoke, Sanity, Functional, Regression, Integration, Migration, UAT, Web, Mobile (Android/iOS), Desktop Apps, Micro services, REST APIs, JSON, SQL, JavaScript.

Tools: Playwright, Postman, JMeter, DBeaver, Docker, Git/GitHub, DevTools, JIRA, Confluence, Click-Up, Trello.

Soft Skills & QA Processes: Agile, SDLC/STLC, Test Plan & Test Case Design, Bug Reporting, Regression Suite Maintenance, RTM, Release Notes, Team Collaboration, Communication, Analytical Thinking, Attention to Detail, Time Management.

WORK EXPERIENCE

QUALITX, SQA Engineer, Lahore, Pakistan

06/2022 - Present

- Performed **manual** testing on web, mobile (Android/iOS), and desktop applications, covering functional, smoke, sanity, regression, integration, UI/UX, UAT, and exploratory testing.
- Designed and maintained **test cases** and **test plans** aligned with **requirements** and user stories.
- Reported, tracked, and verified defects using **Jira** and **Click-Up**, collaborating closely with developers to ensure timely fixes.
- Conducted **API** testing using **Postman** and validated backend data using **PostgreSQL** queries.
- Contributed to **automation** by developing **Playwright** (JavaScript) E2E and regression test scripts.
- Worked with **Docker** to test the project locally.
- Supported **Agile** ceremonies including **sprint** planning, daily **stand-ups**, and **retrospectives**.
- Assisted **junior QA** members and ensured test documentation quality.

TwinSpider, SQA Engineer, Gujrat, Pakistan

02/2022 – 06/2022

- Executed **smoke**, **sanity**, and **regression** tests to ensure product stability
- Logged and tracked issues in **JIRA** for timely resolution
- Wrote and maintained **test cases** for consistent QA coverage.

EDUCATION

University of Gujrat	Gujrat, Pakistan
BS Software Engineering	Sep, 2017 – Sep, 2021

PROJECTS

- SaaS License Management System:** A web app for **managing licenses**, tracking software/hardware, and ensuring compliance. Conducted testing, bug tracking, and **database** validation, improving system reliability and **automate end-to-end** test scripts using **Playwright** with **JavaScript**.
- System Agent:** A **desktop** agent for managing users, computers, and software with hardware report generation. Tested and validated **reports**, ensuring **accurate monitoring** and data **integrity**.
- Cloud Agent:** A **desktop** app for managing cloud resources like **AWS**, **Adobe**, and **O365** and reporting cloud infrastructure details. Validated cloud resources (AWS, Adobe, O365), ensure data accuracy, and tested sync behavior.
- Audacity:** A music app for managing **podcasts**. Tested functionality, **usability**, and **behavior**, improving **user experience**.
- CRM:** A CRM system for managing **customer interactions**, **sales**, and **support processes**. Tested workflows, validated data accuracy.
- Property Management:** A property management web app for handling rentals, tenant management, and payments. Verified **leasing** flows, rent **calculations**, and **tenant** communications modules.
- Logistics App:** Worked on testing and validating **digital** condition reporting workflows for art handling and logistics using manual QA practices.
